# Infection Prevention and Control

## Resources for Domiciliary Care

[www.infectionpreventioncontrol.co.uk](http://www.infectionpreventioncontrol.co.uk)

## Here to help

Wherever you are, we are here to help. Providing Infection Prevention and Control (IPC) award winning educational resources, training, policies, audit tools and much more... which can assist your compliance with the *Health and Social Care Act 2008: The Code of Practice on the prevention and control of infections and related guidance (The Code of Practice)* and CQC registration requirements.

## Who we are

- We are a dynamic NHS Community IPC Team who aim to improve IPC standards and reduce the incidence of healthcare associated infection.
- We provide a commissioned IPC service in our local area, North Yorkshire and York.
- Our multi-disciplinary Team includes Consultant Microbiologists, providing expert advice.

## Our vision

- Is to share best IPC practice in the Health and Social Care sector.
- Is to produce high quality affordable IPC resources.
- Is to reduce hospital admissions.

## What we do

- Provide IPC advice and support to organisations within North Yorkshire and York. For IPC advice contact your local Team or we can offer out of area IPC advice on a chargeable basis.
- Produce evidence-based up-to-date resources, e.g. policies, audit tools, posters, etc. Some resources are free to download, such as the policies, others are available to purchase at a minimal cost, e.g. Preventing Infection Workbook: Guidance for Domiciliary Care staff.

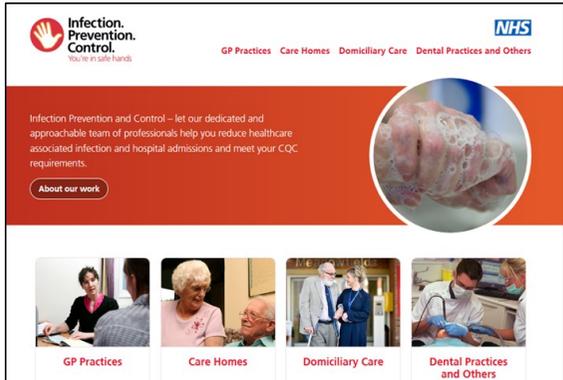

# A 'one-stop-shop' for all your infection prevention and control requirements for Domiciliary Care providers

We have developed a website specifically for Health and Social Care, this is the gateway to all our IPC resources which include:

- The highly acclaimed 'Preventing Infection Workbook: Guidance for Domiciliary Care staff 2nd Edition, which includes MRSA, viral gastroenteritis, *Clostridioides difficile* (see page 4). A perfect solution to your staff training requirements
- 'Community Infection Prevention and Control Policies for Domiciliary Care' with 20 evidence-based policies (see page 6), free to download or available to purchase

[www.infectionpreventioncontrol.co.uk](http://www.infectionpreventioncontrol.co.uk)

## NHS Yorkshire and the Humber Leadership Summit and Regional Leadership Recognition Awards 2016

The North Yorkshire and York Community Infection Prevention and Control Team were nominated for the '**Clinical Team Outstanding Achievement Award**' and were delighted to be selected as a Finalist for this very prestigious Award.

"It is often said that the NHS is not good at dissemination and spread, but this Team is an exception to this rule."

**Judges' comments**

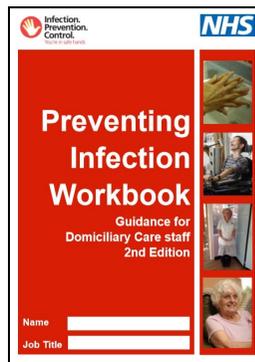

# Preventing Infection Workbook: Guidance for Domiciliary Care staff 2nd Edition

## Objective:

This Workbook has been produced specifically for Domiciliary Care providers to help with CQC requirements and achieve compliance with The Code of Practice.

## Overview:

This innovative 67 page A5 Workbook is aimed at all staff working in Domiciliary Care and is an extremely cost effective way of delivering education. It is designed for all levels of staff and everyone should receive their own copy to be worked through at their own pace. The Workbook is seen as best practice by local CQC Inspectors.

## Provides:

- Latest national guidance
- Evidence-based information
- 18 topics including the Standard infection control precautions, Specimen collection, Preventing a urinary tract infection, Urinary catheter care, Viral gastroenteritis/Norovirus, *Clostridioides difficile*, MRSA, MRGNB and CPE
- Each topic includes a 'test your knowledge' section
- When 100% competency has been achieved, managers sign the 'Certificate of completion' at the end of the Workbook, providing evidence for CQC inspections
- The Workbook is kept by the member of staff as part of their portfolio of evidence of learning and can be used as a reference guide for day-to-day working

“The Workbooks are brilliant resources and staff are lucky you are there to support them. Completion of the Workbook would be an ideal way for Care Home owners and Domiciliary Care Agencies to demonstrate staff training to the CQC.”

**Elaine Biscoe, National Nursing Advisor, Care Quality Commission – Head Office**

# IPC Training

Due to COVID-19, there is currently no face-to-face training taking place. We are planning to provide online training which will be under development in 2021.

To view our training calendar visit [www.infectionpreventioncontrol.co.uk](http://www.infectionpreventioncontrol.co.uk) under 'Events' section.

We deliver a very exciting 2 day course which will help you meet your CQC educational requirements. This in-depth course provides exceptional opportunities to visit the Microbiology Laboratory and Sterile Services Department. With bespoke sessions from Consultant Microbiologists.

This very popular course is held two or three times a year at Harrogate District Hospital. Places are strictly limited, so booking early is advisable. Sample programme below.

 <b>Preventing Infection Course (PIC)</b> 					
This exciting 2 day course is ideal for Infection Prevention Leads and will help you meet your CQC educational requirements. An in-depth course with an exceptional opportunities to visit the Microbiology Laboratory and Sterile Services Department. With bespoke sessions from Consultant Microbiologists. <i>Places are extremely limited on this popular course, and, therefore, early booking is recommended to avoid disappointment.</i>
