

Community Infection Prevention and Control Policies for Domiciliary Care staff

Objective: A comprehensive range of documents which can be adopted as Policies, specifically for Domiciliary Care staff, produced by an experienced NHS Community Infection Prevention and Control Team. This folder has been developed to help your organisation with CQC requirements and achieve compliance with *The Health and Social Care Act 2008: Code of Practice on the prevention and control of infections and related guidance*. All guidance documents contain up-to-date national guidance and evidence-based practice.

Overview: Available to download free of charge or can be purchased in an A4 size ring bound folder, containing 20 infection prevention and control Policies including:

1. BBVs (Blood-borne viruses)
2. *C. difficile* (*Clostridioides difficile*)
3. Enteral tube feeding
4. Hand hygiene
5. MDRO including ESBL and CPO
6. MRSA
7. Patient placement and assessment for infection risk
8. PPE (Personal protective equipment)
9. Respiratory and cough hygiene
10. Safe disposal of waste
11. Safe management of blood and body fluids
12. Safe management of care equipment
13. Safe management of linen
14. Safe management of sharps and inoculation injuries
15. Safe management of the care environment
16. Scabies
17. Specimen collection
18. SICPs and TBPs (Standard infection control precautions and transmission based precautions)
19. Urinary catheter care
