Infection Prevention and Control

Resources for General Practice

www.infectionpreventioncontrol.co.uk

Here to help

Wherever you are, we are here to help. Providing Infection Prevention and Control (IPC) award winning educational resources, training, policies, audit tools and much more... which can assist your compliance with the *Health and Social Care Act 2008: code of practice on the prevention and control of infections and related guidance (Code of practice)* and CQC registration requirements.

Who we are

- We are a dynamic NHS Community IPC Team who aim to improve IPC standards and reduce the incidence of healthcare associated infection.
- We provide a commissioned IPC service in our local area, North Yorkshire and York.
- Our multi-disciplinary Team includes Consultant Microbiologists, providing expert advice.

Our vision

- Is to reduce healthcare associated infections.
- Is to reduce hospital admissions.
- Is to share best IPC practice in the health and social care sector.
- Is to produce high quality evidence-based IPC resources.

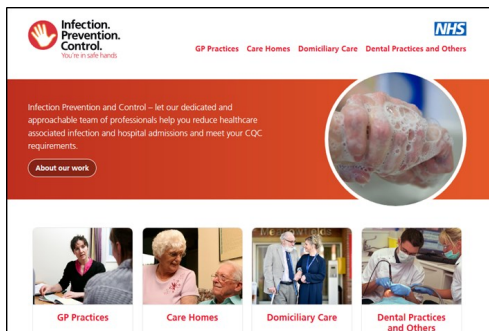

What we do

- Provide IPC advice and support to organisations within North Yorkshire and York. For IPC advice contact your local IPC or UK Health Security Agency (UKHSA) Team.
- Produce evidence-based up-to-date resources, e.g. policies, audit tools, posters, etc. Some resources are free to download, such as the policies and audit tools, others are available to purchase at a minimal cost, e.g. Preventing Infection Workbook: Guidance for General Practice, IPC CQC inspection preparation Pack.

A 'one-stop-shop' for all your infection prevention and control requirements for GP Practices

We have developed a website specifically for health and social care, this is the gateway to all our IPC resources which include:

- The highly acclaimed award winning 'Preventing Infection Workbook: Guidance for General Practice', including MRSA, *C. difficile* and sections on new and emerging 'superbugs', such as MRGNB including CPE, (see page 4). A perfect solution to your staff training requirements
- 'IPC CQC inspection preparation Pack for General Practice' with a wide range of audit tools, posters and notices (see page 6)
- 'Community Infection Prevention and Control Policies for General Practice' with 27 evidence-based policies (see page 8), free to download or available to purchase in a folder

“It’s brilliant! Really engaging and builds on the last ‘Preventing Infection Workbook: Guidance for General Practice’. I read it from cover to cover in one go as I found it really interesting. Dr Brookes also thought it was really well thought out – good links to extra information as required and presented in a way that was suitable for all levels.”

(‘Outstanding’ CQC rating – being in the top 3% of Practices in the whole country)

**Marie Brookes MCSP, Managing Partner,
Reeth Medical Centre, Reeth, Richmond**

Preventing Infection Workbook: Guidance for General Practice

Objective:

The Workbook has been produced specifically for GP Practice settings to help with CQC requirements and achieve compliance with the *Code of practice*.

Overview:

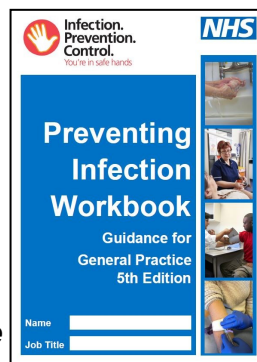

This innovative A5 Workbook is aimed at all staff working in General Practice and is an extremely cost effective way of delivering education. It is designed for all levels of staff and everyone should receive their own copy to be worked through at their own pace. Local CQC Inspectors have viewed the Workbook as best practice.

Provides:

- National guidance
- Evidence-based information
- Topics including the Standard infection control precautions, Antimicrobial stewardship, Aseptic technique, Specimen collection, Venepuncture, *C. difficile*, MRGNB, including CPE, MRSA, PVL-SA, Respiratory illnesses and Norovirus
- Each topic includes a 'Test your knowledge' section
- When 100% competency has been achieved, Managers sign the 'Certificate of completion' at the end of the Workbook, providing evidence for CQC requirements
- The Workbook is kept by the member of staff as part of their portfolio of evidence of learning and can be used as a reference guide for day-to-day working

"I think the Preventing Infection Workbook for General Practice is comprehensive and will contribute towards IPC standards as required by the regulations and interpreted for use in primary care."

Elaine Biscoe,
Care Quality Commission, Head Office

IPC Training events

To view our courses visit www.infectionpreventioncontrol.co.uk under 'Events' section.

We deliver a very exciting 1 day course which is ideal for Infection Prevention and Control Leads and will help you meet your CQC educational requirements. This very popular event is held at least twice a year. Places are strictly limited, so booking early is advisable. Sample programme below.

Call us on 01423 557340 to book a place.

Infection Prevention and Control CQC inspection preparation Pack for General Practice

Objective: The aim of this comprehensive innovative Pack is to assist you with the evidence required to demonstrate compliance with the *Code of practice* and CQC requirements. Our experience of working with CQC Inspectors has enabled us to produce this invaluable tool.

Overview: Available to purchase in an A4 ring bound folder with 5 sections, a range of documents and a supply of colour printed posters.

It is designed to help you provide the evidence required to demonstrate compliance with the *Code of practice* and contains essential compliance resources.

- Information on the key infection prevention and control documents from the Care Quality Commission, Department of Health and Social Care, NHS England, e.g. *Code of practice, National Standards of Healthcare Cleanliness 2021*.
- An in-depth assurance tool to guide you through the complex process of ensuring you have the correct documented evidence and actions required to demonstrate infection prevention and control compliance against each of the 10 criterion of the *Code of practice*.
- A range of essential IPC audit tools and competency assessment tools, e.g. aseptic technique, hand hygiene, personal protective equipment. Also includes a comprehensive 'Standard infection control precautions Assurance: Annual IPC Audit Tool' which works

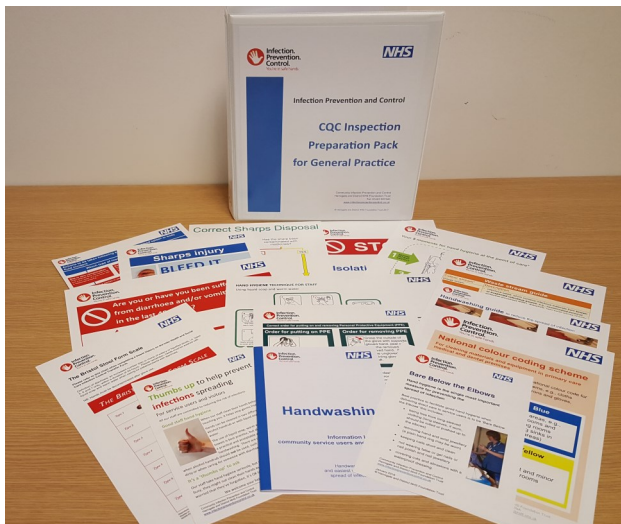

in conjunction with the other IPC audit and assurance tools.

- A supply of key posters, notices, flow charts and leaflets, e.g. Hand hygiene, Bare below the elbows, Breach of hygiene, National colour coding poster for cleaning materials, Sharps/inoculation incident procedure.
- Other IPC information, including the Inter-health and social care infection control transfer Form, job description addendums and a template for the annual statement on compliance with IPC practice.

CQC regulation is essential to ensure that organisations are compliant with the *Code of practice* and ensure that patients receive safe and effective care.

The most important outcome of effective infection prevention and control is:

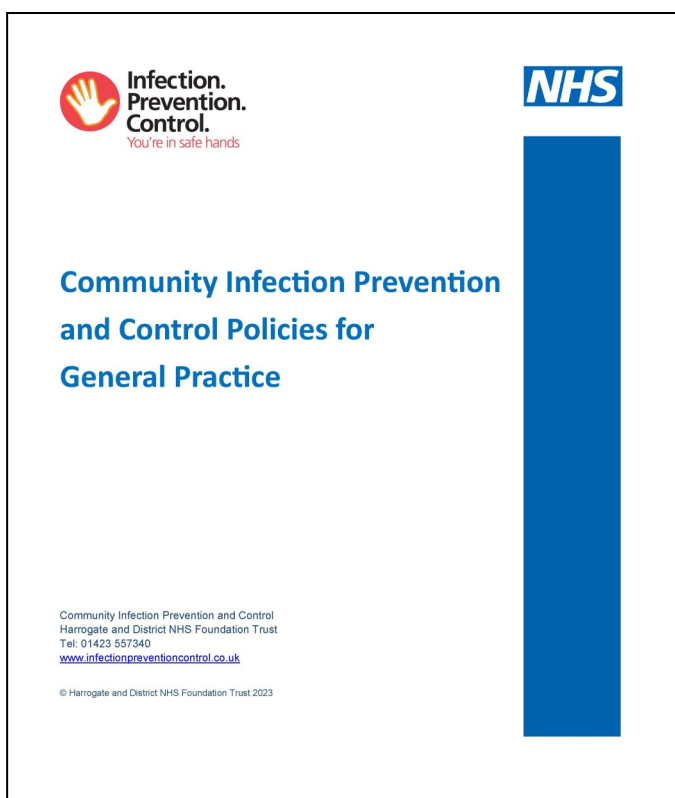

Preventing healthcare associated infection = Patient safety

Community Infection Prevention and Control Policies for General Practice

Objective: We have produced a comprehensive range of documents which can be adopted as Policies, specifically for General Practice. These Policies have been developed to help your General Practice with CQC requirements and achieve compliance with the *Code of practice*. All documents are based on national guidance and evidence-based practice.

Overview: Available to download free of charge or available to purchase in a folder. An A4 size ring bound folder, containing 27 infection prevention and control Policies including:

1. Antimicrobial stewardship
2. Aseptic technique
3. BBVs (Blood-borne viruses)
4. *C. difficile* (*Clostridioides difficile*)
5. CJD (Creutzfeldt-Jakob disease)
6. Hand hygiene
7. Invasive devices
8. MRGNB, including CPE
9. MRSA
10. Notifiable diseases
11. Outbreaks of communicable disease
12. Patient placement and assessment for infection risk
13. PPE (Personal protective equipment)
14. PVL-SA (Panton-Valentine Leukocidin *Staphylococcus aureus*)
15. Respiratory and cough hygiene
16. Respiratory illnesses
17. Safe disposal of waste, including sharps
18. Safe management of blood and body fluid spillages
19. Safe management of care equipment
20. Safe management of linen, including uniforms and workwear
21. Safe management of sharps and inoculation injuries
22. Safe management of the care environment
23. Scabies
24. Specimen collection
25. SICPs and TBPs (Standard infection control precautions and Transmission based precautions)
26. Venepuncture
27. Viral gastroenteritis/Norovirus

Audit Tools, posters, factsheets and leaflets

Audit Tools and factsheets are available free to download from the website.

A wide selection of posters are available to purchase.

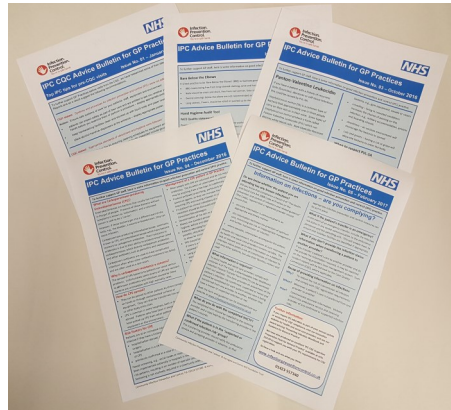

IPC bulletins for GP Practice

To receive a free copy of our regular bulletins, simply e-mail infectionprevention.control@nhs.net and request to be added to our database.

Sample of topics include:

- Scabies
- Antimicrobial resistance
- UTI diagnosis
- Glove awareness and hand hygiene
- PVL-SA (Panton-Valentine Leukocidin *Staphylococcus aureus*)
- Standard infection prevention and control precautions

We are always happy to discuss your infection prevention and control educational requirements to see how we can best support you.

NHS Yorkshire and the Humber Leadership Summit and Regional Leadership Recognition Awards 2016

The North Yorkshire and York Community Infection Prevention and Control Team were nominated for the '**Clinical Team Outstanding Achievement Award**' and were delighted to be selected as a Finalist for this very prestigious Award.

"It is often said that the NHS is not good at dissemination and spread, but this Team is an exception to this rule."
