

Are you drinking enough?

Colours 1-3 suggest normal urine

Check the colour of your urine against this colour chart to see if you're drinking enough fluids throughout the day.

3

If your urine matches 1-3, then you're hydrated.

Colours 4-8 suggest you need to rehydrate

4 <u>••</u>
5

If your urine matches 4-8, then you're dehydrated and you need to drink more.

6

If you have blood in your urine (red or dark brown), seek advice from your GP.

7

Please be aware that certain foods, medications and vitamin supplements can change the colour of urine.
